Guido Emmanuel Cassulo

has successfully completed the online Specialization

Software Design and Architecture

The recipient of this certificate has completed the Software Design and Architecture Specialization. This achievement required mastering knowledge and demonstrating applications of design principles, patterns, and architectures to create reusable and flexible software applications and systems. The Capstone Project provided practical assessment of the acquired knowledge and skills through the continuous development and documentation of an Android application from a single user app that stores data locally to a multi-user app that stores data remotely.

This certificate attests to the recipient's completion of an online program delivered via Coursera. It does not constitute a real credential at any university or entity and does not itself grant academic credit, grades, or degrees. Institutions or organizations may, at their discretion, incorporate this learning record into their own programs or credentials.
