Data Visualization with Python

Machine Learning with Python

Applied Data Science Capstone

Generative AI: Elevate Your Data Science Career

Data Scientist Career Guide and Interview Preparation

Aug 19, 2026

Guido Emmanuel Cassulo

has successfully completed the online Professional Certificate

IBM Data Science

In this Professional Certificate, learners developed and honed hands-on skills in Data Science and Machine Learning. Learners started with an orientation of Data Science and its Methodology, became familiar and used a variety of data science tools, learned Python and SQL, performed Data Visualization and Analysis, and created Machine Learning models. In the process they completed several labs and assignments on the cloud including a Capstone Project at the end to apply and demonstrate their knowledge and skills.
