Guido Emmanuel Cassulo

has successfully completed the online Professional Certificate

IBM Data Science

In this Professional Certificate, learners developed and honed hands-on skills in Data Science and Machine Learning. Learners started with an orientation of Data Science and its Methodology, became familiar and used a variety of data science tools, learned Python and SQL, performed Data Visualization and Analysis, and created Machine Learning models. In the process they completed several labs and assignments on the cloud including a Capstone Project at the end to apply and demonstrate their knowledge and skills.

Ray Athya

AI & Data Science
Program Director
IBM Skills Network

This certificate attests to the learner's completion of an online program offered on Coursera. It does not constitute formal accreditation as only awarded by an entity and does not itself grant academic credit, grants, or degree equivalency or registration rights at other educational institutions. We warrant that this program is verifiable.
